TERM 3! August 8th 2018

Can you believe it, term 3 already and so much happening! I have been lucky enough to spend time in both Piwakawaka and Tuis class this term. Both classrooms have had fun creating our very own Geome-trees. These have been a great way to learn about 2D and 3D shapes, plus create artworks for our classrooms.

This term we are focusing on Turangawaewae-the place we stand. This is what is important to the akonga (students) in Piwakawaka. Look at what we created!

In the Tuis I was lucky enough to experience first hand what a special and kind community St Arnaud is when I bought an abandoned baby kid to school. Right away the students named her Oat the Goat, which was a unit of learning we did last term about kindness. Boy did Oat and I get a taste of how kind, caring and empathetic our learners are at Lake Rotoiti school! Fortunately we found a new home for Oat here in St Arnaud, a perfect reminder of our kindness learning and how our akonga are modelling this value all of the time. Thank you all so much, from Anna and Oat the goat.

Kiwi and weka avian avoidance training

DOC is seeking expressions of interest, to gauge demand, for avian (kiwi or weka) avoidance training for dogs. The training would be held in St Arnaud.

What it entails:

- One approx. 30 minute training session for the initial aversion training,
- Six-monthly ongoing testing,
- Avoidance training uses an electric collar.

The training is suitable for all dogs. Dogs who have attacked weka previously *may* not benefit from the training.

To express your interest or for more information, contact:

Tracey Grose at tgrose@doc.govt.nz or 027 204 2125
